

Fact Sheet 4a: Tiers of Service Self-Assessment Process (New Module)

After the development of a new module or after a major update of an existing module, a standardized self-assessment process is utilized with the following objectives:

1. New modules (this Fact Sheet):
 - a. Identify the tier to which a particular service most closely aligns.
 - b. Identify areas of strengths and opportunities for improvement.
2. After a major update of an existing module¹ (refer to Fact Sheet 4b):
 - a. Confirm or adjust the tier to which a particular service most closely aligns.
 - b. Assess progress on opportunities for improvement identified during the previous self-assessment.
 - c. Identify new areas of strengths and opportunities for improvement.

The description that follows is the standard process that is utilized for completing the self-assessment for a **new module**. It is intended as a **guideline only** and is modified as appropriate for individual modules.

1. Agreement to proceed to the self-assessment phase is provided by (see Fact Sheet 3a):
 - Child Health BC Steering Committee; and
 - Relevant Provincial Committee(s) (if exists).
2. Key individuals and groups are identified to support the self-assessment process:
 - a. *Executive Sponsor(s)*:
 - Provides overall direction & support for the self-assessment process.
 - b. *Project Team*:
 - Leads the self-assessment process.
 - Membership includes a Project Manager, Analyst & other representatives as relevant to the module.
 - c. *Self-Assessment Advisory Group*:
 - Provides advice throughout the self-assessment process on the development of the self-assessment interview/survey process, analysis of the results and format of the reports for a specific module. The Advisory Group will consult with those who will be participating in the self-assessment as they develop the self-assessment process and plans to communicate the results (e.g., health authorities, ministries, and Indigenous partners).
 - Membership includes the Project Manager, Analyst and at least 1-2 individuals who participated in the development of the module.

¹ Major module updates are done every five (5) years, or more often if necessitated by changes in multiple areas of practice.

Fact Sheet 4a: Tiers of Service Self-Assessment Process (New Module)

3. An interview/survey tool is developed in a survey and database tool to assess the status of:
 - a. Tier-defining criteria; and
 - b. Notable criteria.Refer to Fact Sheet 3a (Tiers of Service Module Development) for definitions.
4. Interviews/surveys are conducted in-person or virtually. Relevant service specific data (where available) is provided (e.g., volume data).
 - a. Facility/organization reps (operational and clinical lead at a minimum) are identified to participate in the self-assessment.
 - b. Interviewer asks the representatives questions relevant to the service at their facility/organization (i.e., tier-defining and non-tier defining criteria).
 - c. At the end of the interview, the representatives are asked to select which overall tier they think their organization/facility most closely aligns.
5. All of the responses are captured in survey and database tool. Responses are sent to each facility/organizational rep(s) to validate and are updated in survey and database tool as needed.
6. Self-assessment survey results are analyzed. Tier alignment is identified for each facility/organization. Areas of strengths and opportunities for improvement are identified at a facility/organization, HA and provincial level.
7. Results of the self-assessment are communicated as follows:
 - a. **HA/regional reports:** Shared with HA/regional leadership. Summarize the results for the HA and individual facilities/organizations
 - b. **Facility/organization reports:** Shared with facilities/organizations by the HA/regional leadership. Identifies the tier alignment and summarizes the results for an individual facility/organization in comparison to the average achievement for facilities/organizations within the HA/region/province within the same tier group.
 - c. **Provincial summary:** Shared with the Child Health BC Steering Committee and relevant Provincial Committee(s) (if exist). Data is provided at the HA level only.
