

Thursday, May 30, 2024 from 5:00-6:00pm PST

Join family physicians, **Drs. Linda Emiko Uyeda** and **Shirley Sze**, as well as developmental pediatrician **Dr. Christine Loock** during a virtual education session on ACES & Trauma-Informed Care for Children and Youth on Thursday, May 30, 2024 from 5:00-6:00pm PST.

This session is for healthcare teams across BC who work with children, youth and families.

Dr. Uyeda

Dr. Sze

Dr. Loock

## 1. What to expect?

At the end of this webinar, participants will be able to:

- Review the impact of ACES\*, PCES\*\* and Attachment Theory on child and youth health and development
- Define and demonstrate how trauma-informed care and intersectoral partnerships support children and youth towards wellness and healing
- Apply approaches to better support your patients to improve their well-being, address past experiences and inspire hope
- Translate the newly released **BC Guidelines ACES Extended Learning** document principles into your practice

Time will be allotted for Q & A during the session.

## 2. How do I join?

No need to register. We recommend using a computer or tablet. Simply use this Zoom [link](#) to join.

## 3. How do I watch the recording?

Click [here](#) to watch on demand 5-7 days after the event ends.

Please note: Family physicians and specialists can self-claim CPD self-learning credits by logging into their CFPC or Royal College membership portal, respectively. More information on the [UBC CPD webpage](#).

\*ACES – Adverse Childhood Experiences

\*\*PCES – Positive Childhood Experiences
